LABORATORIES

THE TRUSTED NAME IN TESTING

For over 40 years, the medical device industry has trusted Geneva Laboratories to set the highest standards for reliable product testing, assuring safety and compliance.

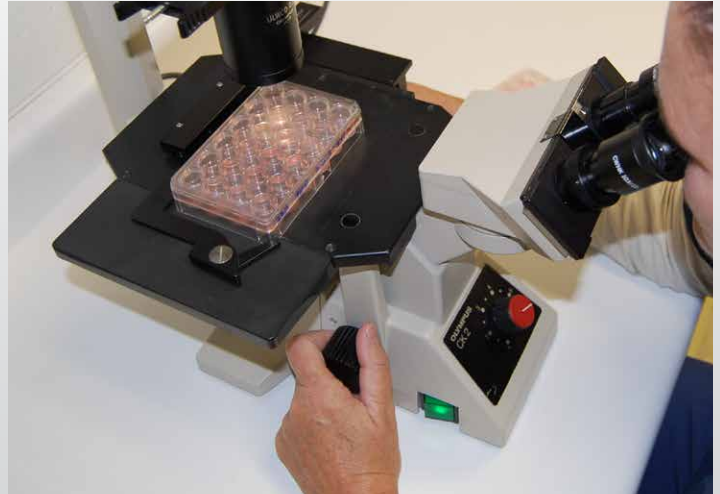

Our highly trained and experienced scientific and technical personnel are dedicated to meeting the ever-evolving needs of our clients in the Medical Device, Pharmaceutical and Personal Care Product industries. We take pride in providing the utmost confidence that their testing requirements are met in a strict, accurate, timely and affordable manner.

Over the years, our respected capabilities have steadily grown from sterility testing of medical devices to include Microbiology, Toxicology, Chemistry, and Special Project laboratories.

When you choose Geneva Laboratories, you can be certain of unmatched customer service to meet all your product testing needs. If you are concerned about the safety of your products and want to be certain that current testing methods are being used to meet today's strict regulatory requirements, contact Geneva Labs, the trusted name in testing.

LABORATORY CERTIFICATIONS

Our laboratory is registered with the Food and Drug Administration (FDA), the Drug Enforcement Agency (DEA), and the United States Department of Agriculture (USDA). ISO 17025 certification allows us to better serve our customers with international marketing of their products.

TESTING SERVICES

MICROBIOLOGY

- Sterility Verification
 - Biological Indicator
 - USP <71>
 - SteriTest™ Closed System for Membrane Filtration
- Bacterial Endotoxin (LAL)
 - Gel Clot
 - Kinetic Turbidimetric
- Microbial Examination of Non-Sterile Products (USP)
- Anti-Microbial Effectiveness (USP)
- Bioburden
- Environmental Monitoring
 - Microbiological Characterization
 - Gramstain / Colony Morphology
- On-site Consultation

VALIDATION OF STERILIZATION PROCESS

- Steam
- Ethylene Oxide
- Gamma

TOXICOLOGY

- Biocompatibility - FDA/ISO 10993
 - Cytotoxicity
 - Sensitization
 - Irritation
 - Implantation
 - Hemolysis
 - Acute Systemic Toxicity
 - USP <88> Classification of Plastics

ANALYTICAL CHEMISTRY

- Method Development/Validation
 - Pharmaceuticals
 - Preservatives
- Medical Device Testing
 - EtO Residual Analysis
 - Residual Solvents
- USP Monograph Testing
 - Raw Materials
 - Finished Product
 - Stability
 - Physicochemical Testing
 - Water
- Physical Tests
 - TOC - (Total Organic Carbon)
 - Conductivity
 - Specific Gravity
 - Spectrophotometry (IR, UV-VIS, AA)
 - Polarimetry
 - GC FID/TCD
 - HPLC Diode Array

SHELF LIFE STABILITY

- Accelerated Aging
- Real Time
- Environmental Challenges

PACKAGE INTEGRITY

- Dye Penetration
- Seal Strength
- Seal Integrity
- Peel Adhesion

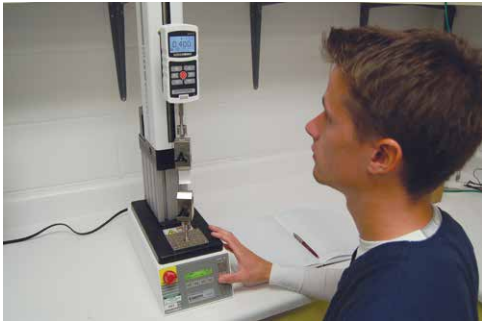

MISCELLANEOUS

- Certification Testing of Gloves, Condoms, Thermometers
- Particle Count
- Instructions for Use
- Cleaning Efficacy

FULL SERVICE FACILITY

This listing is not all inclusive. Contact our customer service representative to discuss your specific testing needs.

** Geneva Laboratories understands the importance of your project. Our Customer Service representatives are ready to help you design the most cost-effective program to provides answers in the most timely manner.*

QUALITY ASSURANCE PROGRAMS

Our Quality Assurance Department ensures compliance to ISO 17025, QSR, cGMP, and GLP guidelines and standard operating procedures. These practices include the use of validated methods and calibrated equipment. Testing is performed and reported by trained, certified scientists, verified by a trained technical reviewer and reviewed by a designated Quality Assurance Auditor. An on-going training program maintains a high level of expertise for all analysts and technicians.

CONFIDENTIAL

All client information, test methods/procedures, and test data are considered confidential information.

QUALITY TESTING

Test methods are developed and validated at customer request or as regulations dictate. We welcome the opportunity to discuss any special project or test methods you may require.

FOR ALL YOUR TESTING NEEDS, CALL GENEVA LABS - THE TRUSTED AND RESPECTED NAME IN TESTING.
